

Safety Goggles: for Splash/Impact Hazards

For those who need eye protection from impact, liquid splashes and debris, safety goggles are the optimal solution. Gateway Safety provides several styles in splash protection, including traditional, wider styles that fit prescription glasses as well as more modern, lightweight goggle options.

The latest addition to the goggle product family is the **BigSur™** safety goggle! BigSur introduces a revolutionary **NextGen™ Neoprene** head strap. This strap provides the chemical resistance of traditional neoprene, but has been engineered with a softer material to improve comfort and not catch the hair. BigSur also features Gateway Safety's **fx3™** premium anti-fog lens, which lasts longer and fights fog more effectively than other 'anti-fog' products on the market.

With the addition of BigSur, Gateway Safety now offers four distinct models of safety goggles to cover nearly any application and fit any facial profile. Call the Gateway Safety team today at 800-822-5347 or visit GatewaySafety.com for more information.

BigSur™

Introducing the BigSur splash goggle, with Gateway Safety's NextGen™ Neoprene head strap, a revolutionary strap for chemical splash and better comfort than a traditional neoprene strap.

SPLASH/IMPACT GOGGLES

BIGSUR™

NEW!

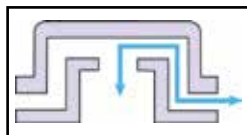

- Splash and impact goggle with wide field of vision.
- Adjustable, NextGen™ Neoprene head strap offers better chemical resistance than cloth and is more comfortable than a traditional neoprene strap.
- fX3™ Premium Anti-Fog lens provides superior fog and scratch resistance, lasting 30 times longer than other anti-fog coatings.
- Meets ANSI Z87.1-2015 requirements for high impact, D3 (droplets/splash) & D4 (dust) ratings.
